

Asset Integrity AMPPLIFIED

Starting a New Corrosion Prevention Chapter

CALL FOR PRESENTATION ABSTRACTS

The 2024 AMPP Alberta Conference (AAC) “Call for Presentation Abstracts” is officially opened!

The AAC will feature technical tracks related to **Asset Integrity AMPPLIFIED**. These track areas are very complex and provide many challenges for the corrosion community. The diagram below shows various technical tracks and topics to present on. Ultimately, the conference will focus on topic areas highlighting the importance and value of asset integrity management including corrosion prevention to safeguard people, property and our environment.

Below are the timelines for the abstract and presentation submissions (paper submission is not required). Outlook reminders have also been included for the various deadlines for your convenience.
